FOR SALE: 8-9 year old Mustang mare. Mulan is dark brown/black; she was started under saddle in the summer of 2007. My 12 year old daughter

rides her mostly. She went to the HDH show this spring and we took her to Utah for the wild horse show there, where she took High Point in a walk trot class with my daughter. Mulan stands 14 hands tall according to my measuring stick. She is very good natured and fun to ride. I would say intermediate rider, but beginner might be ok too as she seems to be very quite. I have actually used her a couple times to give a friend a lesson on. We are asking \$1000.00 for her but open to offers to approved homes. She does have an allergy to bug bites and takes a little extra care to keep her from rubbing her self raw. Mostly we keep fly juice on her and Scarlet oil seems to do the trick. She will walk into a horse trailer, but will get nervous and try to back out before you get the gate closed. If someone stands at her head outside she is fine. She hauls well. She is a great horse and I hate to sell her, but I must cut back. You can call Barbara at 775-867-2355 or e-mail me at NVlegend@cccomm.net for more info.

News Briefs

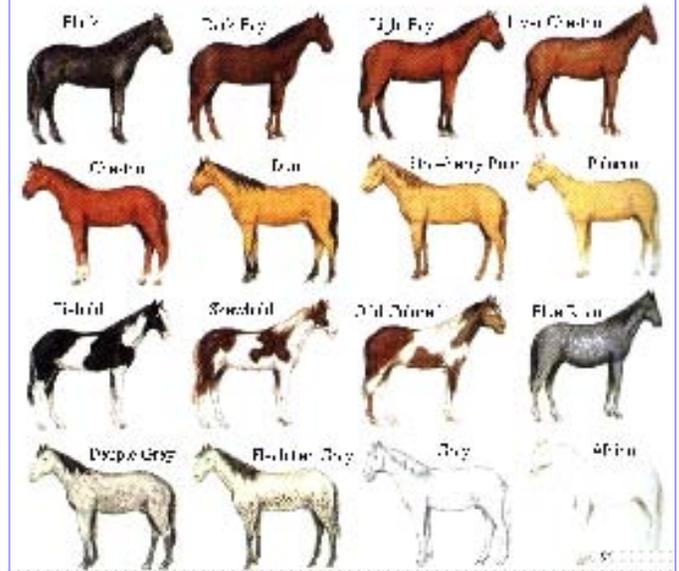

Marcy Petko was injured while riding. She has had back surgery. We wish her a speedy recovery.

Margy Hamilton came off her horse just after completing a ride. She was extremely sore but passed all the tests at the hospital with flying colors, and is riding once again.

Valerie Wolverton was injured while working with her horse. She is on the mend and we hope she heals fast!

Horse and Pony Keeping By the Day, Week, Month and Year

A Daily, Weekly, Monthly and Yearly Checklist

By Katherine Blocksdorf, About.com

Every Day

- Provide fresh clean water.
- Provide adequate fodder and concentrates.
- Provide adequate shelter and blanketing according to the weather.
- Do a visual check for scrapes, cuts, bruises and puncture wounds.
- Do a visual check for signs of illness such as runny eyes or noses, or sounds of coughing or wheezing.
- Clean hooves and check for bruising or cracks, or loose shoes.
- Muck out the stall if your horse is stabled.

Every Week

- Check the amount of concentrate, fodder and bedding on hand.
- If horses are kept in a small acreage, clean manure from paddocks (could also be done daily).
- Check fences for broken rails, loose wire, protruding nails etc....that could cause injury.
- Scrub out water trough and feed buckets.

Every Month

- If you board your horse at a stable make sure your board bill is paid on time.

Every Six to Eight Weeks

- Have your farrier in to trim hooves or re-set horseshoes.

Every Two to Three Months

- Administer de-worming medication.

Once a Year

- Have teeth checked and floated by an equine dentist or veterinarian.
- Have immunizations administered by veterinarian.

For Sale:

Zippity Doo Dah aka Zippy Zip-Stang! Needs a home. He is a 2 1/2 year old stocky and stout Nevada stray Mustang gelding about 13 hands high. He has the stripe down his back and light zebra stripes around the back of his knees.

He is learning his ground manners and coming along real well. I have had him only one month for his training and he loads, goes through some obstacles, picks up all his feet, goes forward, backward, left ,right, side passes, shoulders over, disengages hind quarters, tolerates the plastic bag torture and is very willing to try anything. He loves attention and would make someone a great best friend. He is an easy keeper (too easy)! I've had to cut back his food a little.

His owners are asking \$450, negotiable to the right home only. This little horse has a big heart and alot to offer. Call Bonnie 882-6604 Carson City, or E-mail twoandahalfmustangs@msn.com
